

# Hiab Multilift XR 2S

## XR Light range hooklifts

# The all-rounder for gardeners and many others

When using Hiab Multilift XR 2S with your light truck your work is really blossoming. It gives your 3.5 tonne light commercial truck a real boost on performance and flexibility.

## Small in size but a giant in performance

The Hiab Multilift XR 2S has full functionality with loading / unloading and tipping the body. Thus it masters the work you have with easiness and exceptional safety. Whatever you need to transport, XR 2S can handle it. Bring machinery to destination and while others work with that, you can fetch other materials with a different body onto the site. No idle time, no waiting. Give a boost to your truck's productivity with Hiab Multilift XR 2S.

## Increased versatility and larger payloads

We used the latest 3D-CAD methods and modern production technology to design and manufacture this new range, which minimised the welding needed in construction and resulted in a stronger structure. The exceptional low weight / high strength ratio enables larger payloads, enhances the versatility of the vehicle and maximises its rentability.

## Safety the priority

As in all Hiab Multilift demountables, safety is a key priority in the XR-series. Safety features include load-holding valves directly on the cylinders and a tipping lock mechanism. The XR-series meets all the minimum requirements of the EU's Directive on the Safety of Machinery.

## TECHNICAL DATA

TYPE	XR 2S		
CAPACITY (kg)	2,000		
GVW OF THE VEHICLE (t)	3.5		
CONTAINER LENGTH (internal) (m)	3.0	3.0 - 3.5	3.5 - 4.0
G-LENGTH (mm)	2700	2950	3200
EQUIPMENT WEIGHT (kg)	390	410	430
TIPPING ANGLE (°)	49	49	47
HOOK HEIGHT (mm)	900 / 930		
BODY LEVEL (mm)	135		
MAX. OPERATING PRESSURE (MPa)	18		
RECOMMENDED OIL FLOW (l/min)	15-20
