

# Hiab Multilift XR 3S

## XR Light range hooklifts

# More functionality for light commercial vehicle

Enhance your 4.5 tonne light truck functionality by fitting Hiab Multilift XR 3S hooklift on it. Transport machinery, lift heavy loads, or tip materials – XR 3S masters it all with ease.

## Full functionality in a small package

The Hiab Multilift XR 3S enhances your truck's functionality for a level known from heavy trucks. Now you can load the body on the ground with low height, drive the machinery onto the body or platform and XR 3S lifts it onto the truck on your behalf. And beyond that, it also can tip the goods when needed. Additionally, with suitable special bodies you can perform multiple tasks where earlier you needed several trucks. Improved efficiency with better profitability!

## Increased versatility and larger payloads

We used the latest 3D-CAD methods and modern production technology to design and manufacture this new range, which minimised the welding needed in construction and resulted in a stronger structure. The exceptional low weight / high strength ratio enables larger payloads, enhances the versatility of the vehicle and maximises its rentability.

## Safety the priority

As in all Hiab Multilift demountables, safety is a key priority in the XR-series. Safety features include load-holding valves directly on the cylinders and a tipping lock mechanism. The XR-series meets all the minimum requirements of the EU's Directive on the Safety of Machinery.

## TECHNICAL DATA

TYPE	XR 3S		
CAPACITY (kg)	3,000		
GVW OF THE VEHICLE (t)	4.5		
CONTAINER LENGTH (internal) (m)	3.0	3.0 - 3.5	3.5 - 4.0
G-LENGTH (mm)	2700	2950	3200
EQUIPMENT WEIGHT (kg)	400	420	440
TIPPING ANGLE (°)	49	49	47
HOOK HEIGHT (mm)	900 / 930		
BODY LEVEL (mm)	135		
MAX. OPERATING PRESSURE (MPa)	25		
RECOMMENDED OIL FLOW (l/min)	15-20
