

Hiab Multilift XR 8S

XR Medium range hooklifts

A light expert for big containers

The Hiab Multilift XR 8S offers maximum productivity in a small package. The hook height of 1450 / 1570 mm gives you a wide range of transportation options while the lifting capacity of 8,000 kg masters loads easily and comfortably.

Never carry an empty load

In addition to the normal tasks demountables perform, the XR 8S, is a utility expert in tipping or transporting. Tipping is guaranteed to be simple with fast and reliable operation. But its functionality is in eliminating empty return trips with a dual capacity to transport light containers or machinery to new destinations.

Together with easy control and smooth movements it is a most cost effective method of dealing with your load.

Increased versatility and greater payloads

We used the latest 3D-CAD methods and modern production technology to design and manufacture this new range, which minimised the welding needed in construction and resulted in a stronger structure. The exceptional low weight / high strength ratio enables larger payloads, enhances the versatility of the vehicle and maximises its rentability.

Safety the priority

As in all Hiab Multilift demountables, safety is a key priority in the XR-series. Safety features include load-holding valves directly on the cylinders and a tipping lock mechanism. The XR-series meets all the minimum requirements of the EU's Directive on the Safety of Machinery.

TECHNICAL DATA

TYPE	XR 8S		
CAPACITY (kg)	8,000		
GVW OF THE VEHICLE (t)	12 / 14		
CONTAINER LENGTH (internal) (m)	3.0 - 4.0	3.5 - 4.5	4.0 - 5.0
G-LENGTH (mm)	3250	3650	4150
EQUIPMENT WEIGHT (kg)	980	1010	1040
TIPPING ANGLE (°)	50		
HOOK HEIGHT (mm)	1450 / 1570		
BODY LEVEL (mm)	220		
MAX. OPERATING PRESSURE (MPa)	30		
RECOMMENDED OIL FLOW (l/min)	35
